

Annex E – Notes on calculating the estimated value of the final salary scheme pension at retirement

This is the estimated value of your final salary pension (FPS 2006). Note that you will not continue to build up final salary pension after 31 March 2015.

All members eligible for remedy

Your final salary estimated pension is calculated based on your service up to 31 March 2015 divided by an accrual rate multiplied by your final pensionable pay at the date of this statement.

The table below shows the accrual rate that applies.

	FPS 2006
Accrual rate	1/60th

Your FPS 2015 benefits are calculated as per [Appendix D](#) – estimated value of CARE.
